Stop Paying for TV Now

www.SkyviewElectronics.com
46 Baldwin St. Brooklin

Wanting to cut back on your monthly bills.....

like: cable, satellite, telephone, cell phone, internet, newspaper and magazine subscriptions, the new HST. When will the madness stop? Why not dump your cable and save \$50-\$100 monthly. Did you know that there are 27 FREE & LEGAL Digital High Definition TV channels being broadcast in and around the GTA. The picture quality is AMAZING and definitely better than Satellite or Cable TV. Digital free off air channels are generally not compressed like satellite or cable which degrades the image. The result is a video quality like you've never seen before. So enjoy the improved quality and just imagine how much you'll save over time. If you plan on watching tv for the next 5 years even basic cable will cost you \$3,000 + tax. Put that in your pocket and start saving now.... Most people even if they have 100 channels generally watch only 5 or 6 favourites anyway. So 20+ channels the odd movie rental, a date with your gal at the movies once in a while, life is good and you're saving tons of cash.
